

Corona Razortooth Pruning Saw - 14in

RCRS16020

Details

RazorTOOTH technolog removes 2X more material per pull stroke than conventional blades resulting in extremely fast and efficient cutting. The 3 sided razor teeth, made of high carbon steel, cut up to an 8in diameter branch. The chrome-plated blade reduces friction and the impulse hardened teeth extend tool life. Enjoy the ergonomic handle with pistol grip, reducing hand slippage and hand fatigue. 14in blade

- Ideal for large branches
- 2X faster cut with RazorTOOTH Saw technology
- 3-sided impulse-hardened teeth stay sharp longer
- Replaceable, 14 in taper-ground blade
- Curved-blade design for faster cutting
- Ergonomically designed, co-molded handle

Specifications

Manufacturer	Corona
Blade Length	7 in
Blade Material	Steel
