

Alloy Machined Side-Eject Tine - .3125MT x 6.000L x .320OD R9990064

Details

Alloy Machined Side-Eject tines remove a soil core which quickly exits the side of the tine through a precision machined slot. This slot is designed to avoid "plugging" that can occur using hollow tubular tines (especially the smaller diameters) in heavy soil conditions. R&R manufactures a wide selection of these side-eject tines machined from special high-carbon alloy steel solid bar and heat treated to RC45-48 in our own heat treating facility. Very popular for the multiple tine holders which fit all greens aerators.

Specifications

Manufacturer	R&R Products
A - Tine Type	Alloy Machined Side-Eject
B - Tine Mounting Dia.	.315 in (8mm)
C - Tine Length	6 in (152mm)
D - Tine Tip Outside (Hole) Dia.	.320 in (8.1mm)
E - Tine Tip Inside (Core) Dia.	.220 in (5.5mm)
F - Tine Wall Thickness	.049 in (1.2mm)
Savings	Volume Buy

Fits Models

Redexim Verti-Drain
Southern Green Soil Reliever
