

Details

The US 0.8 is the smallest 12V charger with state of the art technology perfect for charging smaller 12V batteries found in motorcycles, jet skis, ATVs and lawnmowers or for maintenance charging "normal sized" batteries such as car batteries. The unique display allows the user to follow the entire charging process. This compact the fully automatic 6-step charger is designed for 12V batteries from 1.2-32 Ah and is suitable for maintenance charging up to 100 Ah. The US 0.8 is splash and dust proof and is designed to protect vehicle electronics. Non-sparking, reverse polarity protected and short-circuit proof.

- 6-step, fully automatic charging and maintenance
- Many accessories to simplify use for multiple batteries
- Water-resistant to withstand rain or snow
- Maintenance charge
- Desulphation to extend battery life
- No sparks, short-circuit proof
- Reverse-polarity protected

Specifications

Manufacturer	CTEK
Battery Capacity	1.2-32 Ah
Charging Current	0.8A Max
Charging Voltage	14.4 V
Input Voltage	110 VAC
Manufacturer's Warranty	5 year
Type of Batteries	12v Lead-acid Batteries (WET, MF, FEL and AGM)
