

Lockable Cooler Lid Tether

RP7606

Details

Lockable Lid Tether connects the lid to the cooler body assuring integrity of the water. Plastic tether holds lid at side of cooler, when open, to avoid ground contamination. Secure with padlock to prevent tampering or unwanted access after cooler is filled. Locks sold separately. Instructions included. Easy installation. This is a must for every cooler.

- Prevents tampering with cooler
- Holds lid when open to avoid ground contamination
- Locks sold separately
